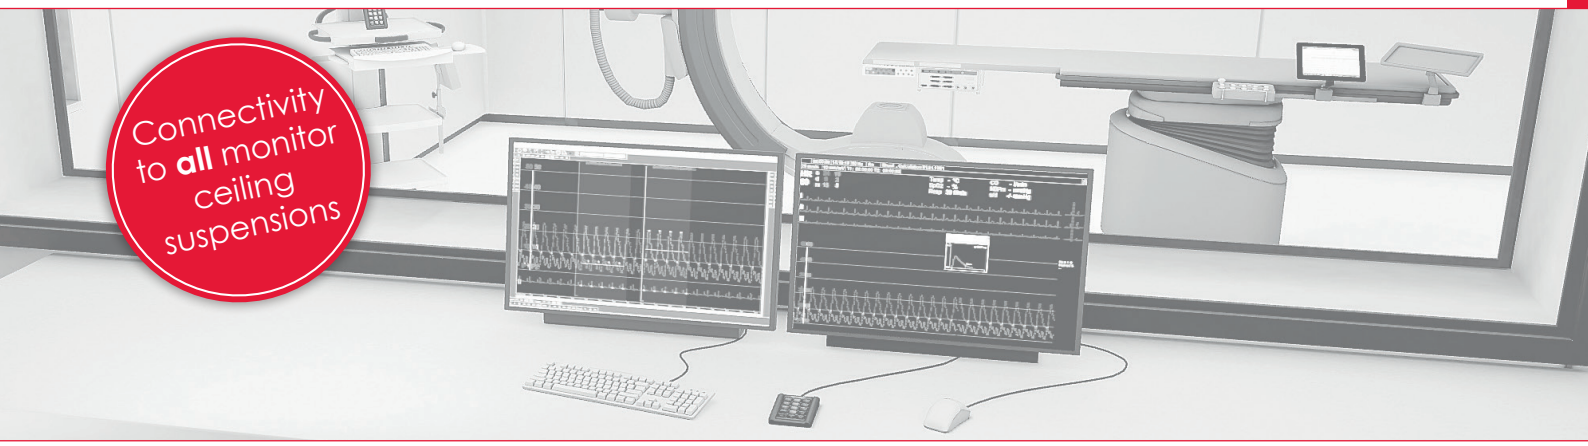
schwarzer cardiotek
SMART. PRECISE. RELIABLE.

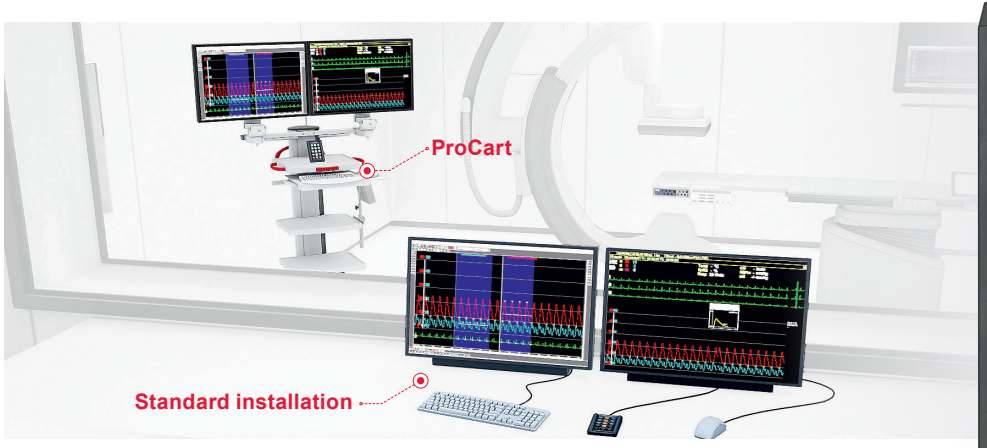
The hemodynamic measuring system - Measure the Difference



## Reliable results for your hemodynamic diagnosis

- Invasive blood pressures (shunts, stenosis calculation, valve areas)
- ECG
- Non-invasive blood pressure
- SpO2
- Cardiac output (Thermodilution and Fick)
- Temperature
- Respiratory rate
- FFR (integrable or third-party solutions)
- Natal and paediatric measurements
- Extendable to EP
- Full disclosure files
- Capture and store waveforms
- Report (stored data, analysis, and waves)
- Interfaces to Informations Systems

## Available as mobile and stationary solution



## Smart Keyboard

Control at the palm of your hand

## Service & Support

Benefit from optional service contracts for **maintenance**, **updates**, and **fast technical support** - tailored to your needs.
